DATA SHEET

EVOLVE2 65 FLEX

The most portable professional headset with best-in-class ANC performance.*

Technology for life's new rhythm

THE FUTURE IS UNFOLDING

Our revolutionary fold-and-go design makes Evolve2 65 Flex the most portable professional headset, with a collapsible hinged headband and slimmed-down earcups so it fits easily into even the smallest of bags. Slip it into the soft sustainable pouch and you're instantly good to go. **With Evolve2 65 Flex you're ready to work anywhere.**

ENTER THE QUIET ZONE

Clacking keyboards, loud conversations, coffee brewing… sometimes Every. Single. Noise. Throws your focus off. An advanced chipset and sensors inside and outside the earcups deliver powerful, best-in-class Hybrid Active Noise Cancellation, and with memory foam padding to seal out even more of your surroundings, you can work in all the busy places you want, and still keep your to-do list on track. **With Evolve2 65 Flex, wherever you wander, your attention won't.**

GIVE YOUR VOICE CENTER STAGE

A specially-designed digital algorithm, powerful chipset, and Open Office-approved Jabra ClearVoice microphone technology create a triple threat to noise, cutting through any background chatter to make your voice the star of every call you make. Now you can deliver a professional performance everywhere you go. Even if that last-minute call comes while you're grabbing the groceries. **With Evolve2 65 Flex everywhere works.**

SMALL IN SIZE. BIG ON COMFORT.

We've streamlined Evolve2 65 Flex to go where you do, but that doesn't mean we skimped on comfort. Game-changing Jabra Air Comfort technology is specially designed to relieve pressure, with layers of ultra-soft perforated foam inside a cushioned headband, and flexible rotating earcups with a unique comfort-enhancing pattern, for a gentle fit and out-of-this-world comfort. **Keep your head in the game and off what you're wearing.**

GET SOME HEADSPACE

Need five minutes peace to tackle your to-do list or take an important call? Evolve2 65 Flex has a 360° busylight that glows red so everyone around you instantly knows when not to disturb. **Now that's a serious status symbol.**

STEALTH MODE

Don't fancy looking like you're about to host a TED talk when you're grabbing a quick coffee? We've got you. The streamlined foldable design has a shorter hide-away boom arm to help you look and sound professional in the office, then flips up so you can go incognito off-duty, for instant laidback listening. **Standout design so you can blend in everywhere.**

GO YOUR OWN WAY

Evolve2 65 Flex is certified for all major virtual meeting platforms - think Google Meet, Microsoft Teams, and Zoom - and comes in a Microsoft Teams variant, so you can get the most out of your online experience however you like to connect. And because it's plug-and-play, with dual connectivity and a wireless range of up to 30m/100ft, it's even easier to work your way. **Do what you want, where you want, when you want.**
